

Name Change for the Florida Notary Public

If your lawful name changes, you must request an amended commission **within 60 days** of the name change by submitting the appropriate name change **application form**, a **rider to the notary bond**, and a fee of \$25. You should contact the American Association of Notaries for assistance, at 1-800-721-2663. Once you make application for a change of name, you may continue notarizing in your former name until receipt of your amended commission and seal. You will be given a new commission number, but you will retain the same expiration date.

Note: penalties may apply for failure to notify the state of any change to name, address, or contact numbers.
